USER WORKFLOW

Phase 1 – User Registration

Objective

Allow laboratories to create a secure account for participating in PT programs.

Registration Form Fields

Company / Laboratory Information

- Laboratory Name
- NABL Certificate Number (Optional)
- Laboratory Type
- GST Number
- Address
- City
- State
- Country
- PIN Code

Contact Details

- Contact Person
- Designation
- Email
- Mobile Number

Account Details

- Username (Auto Generated)
- Password
- Confirm Password

Registration Flow

Open Website →Click Register → Fill Registration Form → User Account Created → User ID & Password Sent to Email

Phase 2 – User Dashboard

After login, the participant reaches the Dashboard.

Dashboard contains:

A. Active PT Programs

Shows

- Available Programs
- Registration Last Date
- Program Fee
- Scheme Code
- Test Parameters

Buttons

- View Details
- Register

B. Past PT History

Displays

- Previous Programs
- Reports
- Z Scores
- Performance History
- Certificates

Download Options

- PT Report
- Certificate
- Invoice

Phase 3 – Program Registration

Select PT Program → View Program Details → Fill Program Registration Form → Apply Referral Code → Discount Applied → Proceed to Payment → Payment Successful → Registration Completed → Confirmation Email

Program Registration Form

Participant selects

- Program
- Test Parameters
- Sample Quantity
- Shipping Address
- Billing Address

Referral Code System

Admin creates

- 5%
- 10%
- 15%
- Fixed Amount

Referral Rules

✓ One Time Use

✓ Client Specific

✓ Expiry Date

Phase 4 – Payment Module

After Payment

Automatically Generates

- Registration Number
- Email Confirmation

Phase 5 – Sample Dispatch

Admin dispatches PT Items.

System Automatically Generates

- Sample ID
- QR Code

Participant Dashboard shows

Program → Sample Dispatched

Phase 6 – Observation Submission

Participant receives sample.

Performs testing.

Logs into portal.

Opens Observation Form.

Enters Results.

Uploads supporting files if required.

Submits.

Submission gets locked after deadline.

Observation Form

Contains

- Sample ID
- Parameter
- Test Method
- Result
- Unit
- Remarks

Phase 7 – Report Release

After statistical evaluation

Participant receives

- PT Report
- Z Score

Reports remain permanently available

ADMIN WORKFLOW

Module 1 – Dashboard

Shows

- Total Participants
- Active Programs
- Revenue
- Pending Dispatches
- Submitted Observations
- Pending Reports

Module 2 – PT Program Management

Admin can(Create, Edit ,Close) PT Programs

Program Details

- Program Code
- Program Name
- Discipline
- Parameters
- Registration Start Dates
- Registration End Dates
- Dispatch Dates
- Submission Dates
- Report Date

Module 3 – Participant Management

Master Sheet

Contains

- Participant ID
- Laboratory Name
- Contact Person
- Email

- Mobile
- Status
- Payment Status

Search

Filter

Export Excel

Module 4 – Registration Window

Admin sets

Opening Date

Closing Date

System automatically

Registration Start → Registration Active → Last Date Reached → Registration Closed → Link Disabled

Module 5 – PT Plan Generation

Admin enters

Program Details → Software Generates → Official PT Plan

PT Plan Includes

- Program Number
- Material
- Parameters
- Timeline
- Assigned Coordinator
- Sample Quantity
- Sample Preparation Instructions

Module 6 – Sample Production Planning

Tracks complete sample preparation.

Fields

- Batch Number
- Material
- Quantity
- Homogeneity Testing
- Stability Testing
- Prepared By
- Verified By

Module 7 – Sample Assignment

System Automatically

Generates
PT-2026-001

PT-2026-002

PT-2026-003

Assigns each sample to participant.

Maintains traceability.

Module 8 – Dispatch Management

Workflow

Samples Ready → Dispatch Completed → Participant Notified

Notification Includes

- Sample Dishpatch Email
- QR Code
- Sample ID

Module 9 – Observation Management

All submitted observations stored centrally.

Admin can (View, Edit , Export, Filter)

Module 10 – Statistical Engine

Automatically Calculates

- Mean
- Median
- Standard Deviation
- Robust Mean
- Robust Standard Deviation
- Z Score

Module 11 – Report Generation

The system automatically generates the following reports after the statistical evaluation is completed:

- **Individual Participant PT Report**
  - One report for each participating laboratory.
  - Includes Participant Details, PT Program, Sample ID, Submitted Results, Assigned Values, Parameter-wise Z-Scores, Performance Status, Graphs, Remarks, QR Code, and Digital Signature.
- **Parameter-wise Z-Score Report**

    - One separate report is generated for **each test parameter** in the PT program.
    - Displays the Submitted Result, Assigned Value, Z-Score, and Performance Status of **all participating laboratories** for that specific parameter.

- **Master Z-Score Report**

    - One consolidated report containing **all participants** and **all parameters**.
    - Used for comparing the performance of all laboratories in a single report.

Module 12 – Historical Archive

Stores permanently

- Reports
- Certificates
- Payments
- Observations
- Dispatch Records
- Statistical Data
